Fred Breithut
Chairman Long Island FIRST
School-Business Partnership of Long Island

Dear Fred,

I must express to you how our team has directly benefited from your tireless effort to bring together Long Island businesses and our schools. Your decision to pour your, and SBPLI's energies into Long Island FIRST as a vehicle and focus for your outreach efforts was instrumental in getting both Hauppauge High School and our sponsor FESTO involved in such a fine program.

We hold you directly responsible for scores of Hauppauge student's discovering the fascinating fields of engineering by working with professional mentors and pursuing higher education and careers in technical fields. These students have won scholarships to solidify their dreams in college and have earned further exposure through internships at Long Island companies such as FESTO. The benefits and opportunities you have provided our children are priceless.

The engineering mentors and parents thank you for your outstanding work on behalf of our children and our community. Our students thank you for the expanded exposure to and insight into the role played in all our lives by engineering and technology, and for their broadened career opportunities.

Gratefully,

Mark McLeod
Team 358 Advisor
Hauppauge, NY
