

FRED BREITHUT (1926-2010)

About SBPLI, Inc.

SCHOOL-BUSINESS PARTNERSHIPS OF LONG ISLAND, INC. was founded in 1984 by Fred Breithut in order to establish partnerships between schools and businesses on Long Island. The critical mission of SBPLI, Inc. is to enhance student success by developing instructional strategies and the development of new curriculum. The FIRST (For Inspiration and Recognition of Science and Technology) Robotics Competition is designed to immerse high school students into the exciting world of science and technology, while introducing them to technical career opportunities.

Perhaps Fred's greatest legacy to the students of Long Island is establishing SBPLI, Inc. as the host organization for the annual Long Island FIRST Robotics Competition held at Hofstra University. With expenses exceeding \$250,000 to host this event, the proceeds from this outing will be used to cover a portion of this cost.

Thank you for your generous support.

HONOREES

James W. Reed Business Consultant

James W. Reed, former Deputy Commissioner, Nassau County Office of Consumer Affairs, has been recognized as a humanitarian for his 30 years of community service and his work with more than 150 not-for-profit organizations. He has raised more than \$52 million of in-kind donations and has received numerous awards and recognition for his work.

Mr. Reed was an honoree at the 60 Over 60 Gala in 2008, hosted by SBPLI, Inc. for his tremendous contributions to Long Island.

Mark McLeod Northrop Grumman

Mark McLeod recently celebrated his 30-year tenure at Northrop Grumman and is the Manager of the Cyber-Warfare Integration Network, responsible for Distributed Weapon System Simulations and Operations Analysis. His volunteer work includes 9 years serving the FIRST Robotics Competition, 6 years as leader of the Hauppauge Robotic Eagles Team and mentor for dozens of other FRC teams.

Mark received the 2008 SBPLI, Inc. Long Island Outstanding Volunteer Award and Northrop Grumman's 2007 President's Award.
